

## **Geology/Geophysics Summer Student**

Tourmaline Oil Corp. is a Canadian senior crude oil and natural gas exploration and production company. We are focused on long-term growth through an aggressive exploration, development, production and acquisition program in the Western Canadian Sedimentary Basin.

We are currently looking for a Summer Student to join our Calgary office. This is a term position that will run approximately four months in length, from the end of school exams to the start of the fall school term.

The successful candidate will be responsible for or assist with the following duties but not be limited to:

- Evaluating properties, undeveloped land, and/or new exploration opportunities.
- Constructing geological cross-sections.
- Generating a well database.
- Analyze core and chip samples.
- Providing recommendations for drilling locations as well as regional mapping and play generation.
- Work with Accumap and other various Geological programs.

### Qualifications

- Entering into their third or fourth year of a Geology degree or Master's program.
- Ability to think strategically and logically.
- Detail oriented.
- Strong written and verbal communication skills.
- Ability to work independently and in a team environment.
- Positive and upbeat attitude.
- Well-spoken and professional.
- Takes pride and ownership in their work.
- Proactive and self-motivated.
- Available for a work term beginning in 2019.

Please submit resumes and a copy of your post-secondary transcript Attn: Ron Hill to [careers@tourmalineoil.com](mailto:careers@tourmalineoil.com) by December 10<sup>th</sup>, 2018.

We thank all candidates for applying; however, only those candidates selected for interviews will be contacted. Interviews will be held in December and January.
