

Field HSER Advisor

Tourmaline Oil Corp. is a Canadian senior crude oil and natural gas exploration and production company. We are focused on long-term growth through an aggressive exploration, development, production and acquisition program in the Western Canadian Sedimentary Basin.

We are currently looking for a Field HSER Advisor to join our office in Fort St. John, BC.

Reporting to the Manager-HSER the successful candidate will be responsible for or assist with the following duties but not be limited to:

- Support and provide guidance regarding Tourmaline's HSER programs.
- Responsible for promoting a positive HSER attitude and instilling commitment among all Tourmaline work groups (employees, contractors and vendors) by encouraging them to support, participate and comply with company HSER initiatives.
- Provide expertise, guidance and support on HSER issues during operational activities including turnarounds, projects, etc.
- Participate in the incident investigations and assist in determining root causes and preventative actions for incidents.
- Complete routine field inspections of Tourmaline operations and provide feedback to the businesses on continuous improvement opportunities/observations.
- Participate in area meetings (HSE, Project Kick-off, Vendor, etc.)
- Read and understand Tourmaline's procedures, processes and best practices.
- Provide expertise, guidance and support on HSE issues during operational activities including turnarounds, pre job meetings, etc.
- Assist in the HSER annual reporting (eg: GHG, Benzene, NPRI, etc.)
- Participate and assist in emergency response of events
- Play a lead role within area incident management including the review and follow-up of all incidents within the area.
- Support and participate in area Synergy groups
- Be a point contact for local regulatory bodies (OGC, WorkSafe BC, etc.),
- Assist in the development and management of the area liability management process, this can include but not limited to the area Abandonment, Remediation and Reclamation (ARR) program.
- Be an area champion for the HSER systems and tools
- Provide area specific guidance to the HSER team on initiatives (eg: SWP, SDS's, procedures, GHG's, etc.)
- Provide assistance to other operating regions/areas as required and directed by the Manager, HSER or the COO.

Description of Candidate:

- Post-secondary education in an HSER related discipline is required.
- A related professional designation (CRSP, PBio, PAg, etc.) or working towards one is required.
- Minimum ten (10+) years direct related work experience in HSER.
- Experience working in upstream oil & gas operations is required.
- Advanced competency in Microsoft Office systems.
- Attention to detail, ability to multi-task and strong organizational skills are essential.

- Ability to work under pressure and meet timely deadlines.
- Exceptional interpersonal and communication skills (written and verbal).
- Ability to work independently or in a team environment; can function well with little direction.
- Positive and upbeat attitude.
- Takes pride and ownership in their work.
- Proactive and self-motivated.
- Reside in/around Fort St John or Dawson Creek.

Please submit your resume Attn: Manager, HSER to Careers@tourmalineoil.com by January 22, 2021.
